EXPERIENCE

Profile Company, Mashhad, Khorasan Razavi

Full-Stack Developer

3/2019 – CURRENT

- React developer works with Redux, Redux-Saga, GraphQL, ApolloGraph, immutable-js, webpack, babel, sentry, typescript, and a lot more packages related.
- React Native developer to write Ios and Android application with RNN(Wix), Firebase.
- Working with pure javascript for part of the project and web-component.
- Working on the webinar and accounting system. Using BigBlueButton for the webinar system and implemented a middleware service to connect the product to this third party program with Golang, MySQL, MongoDB, gRPC, Protobuf, and GraphQL.

Agrimetsoft Company, Mashhad, Khorasan Razavi

Web Designer/Developer

1/2019 – 3/2019

- Completed full redesigns of existing websites to improve navigation, enhance visuals, and strengthen search engine rankings.
- Designed and executed security measures such as firewalls and encryption.
- Created site layout and user interface using HTML and CSS practices.
- Implemented Google Campaigns and SEO for various types of websites.
- Developed landing pages, dashboards, and online applications using WordPress.

Insurance Office, Tehran, Tehran

Web Designer and Computer Technician

10/2017–6/2018

- Transitioned from concepts and layout to deployment by experimenting with themes and genres.
- Maintained site appearance by developing and enforcing content and display standards and editing submissions.
- Configured hardware, devices, and software to set up new work stations for employees.
- Brokedown and evaluated user problems using test scripts, personal expertise, and probing questions.
- Used diagnostic tools to identify hardware failures and replace non-functional components.
- Backed up company data on a regular basis, successfully recovering critical information after malware attacks.
- Answered calls and emails at the company's help desk, assisting employees and customers with troubleshooting computer issues.

PROFILE

Solution-driven professional excelling in a highly collaborative work environment, finding solutions to challenges, and focused on customer satisfaction. Hardworking Golang, Python, and Java Developer are enthusiastic about working with multicultural teams. Proven experience developing consumer-focused web sites using HTML, CSS, JavaScript, React JS, and JQuery. Experience building products for desktop, and mobile app (React Native) users, meeting highest standards for web design, user experience, best practices, usability, and speed. Skill developing microservices with gRPC and protocol buffer and using MongoDB, MySQL, and Redis for storing data and NATs for communicating between services. Responding to challenges by designing and developing solutions and building web applications aligned to customer's services. Translating solutions into code and working across many different APIs(like REST and GraphQL with ApolloGraph), third-party integrations, and databases. Effective at working in Agile environments using SCRUM methodologies. I enjoy learning new things and can assimilate new ideas quickly.
